## ABOUT US

Bruxis is a modern international company that has been working since 2013 in the field of trading, investment, and exchange of funds. Thanks to a diversified portfolio of investments, we are able to generate stable profits and provide high returns for our investors

The main scopes of our work:

- Cryptocurrency trading
- Forex trading
- Investment
- Exchange operations

## OUR ADVANTAGES

### 1. PASSIVE INCOME

You can earn in our company by making a deposit on any of the investment plans presented. All agreements are signed online.

### 2. ALGORITHMIC TRADING

In addition to manual trading by top-level traders, our specialists have developed specialized software (robots) that trades according to specified algorithms and brings a stable income to the company.

### 3. EXCHANGE OPERATIONS

Our company provides an opportunity to exchange funds for both private clients and companies. Low commissions with large volumes of transactions bring good additional income.

### 4. COMFORTABLE WITHDRAWAL OF FUNDS

We work only with reliable payment instruments and provide the ability to withdraw funds to all clients of the company, without providing unnecessary documents.

### 5. LOW ENTRY THRESHOLD FOR INVESTORS

One of the investment areas of Bruxis is startups and stocks of companies, the minimum entry threshold for which often starts from \$ 10,000 – \$ 50,000. Thanks to equity participation, our investors receive income from such areas, having a deposit of even \$ 100.

### 6. QUALIFIED SUPPORT

Our support specialists are highly qualified and will answer any questions you may have about working for the company. If you have any additional questions, you can always contact our mail and get a quick answer.

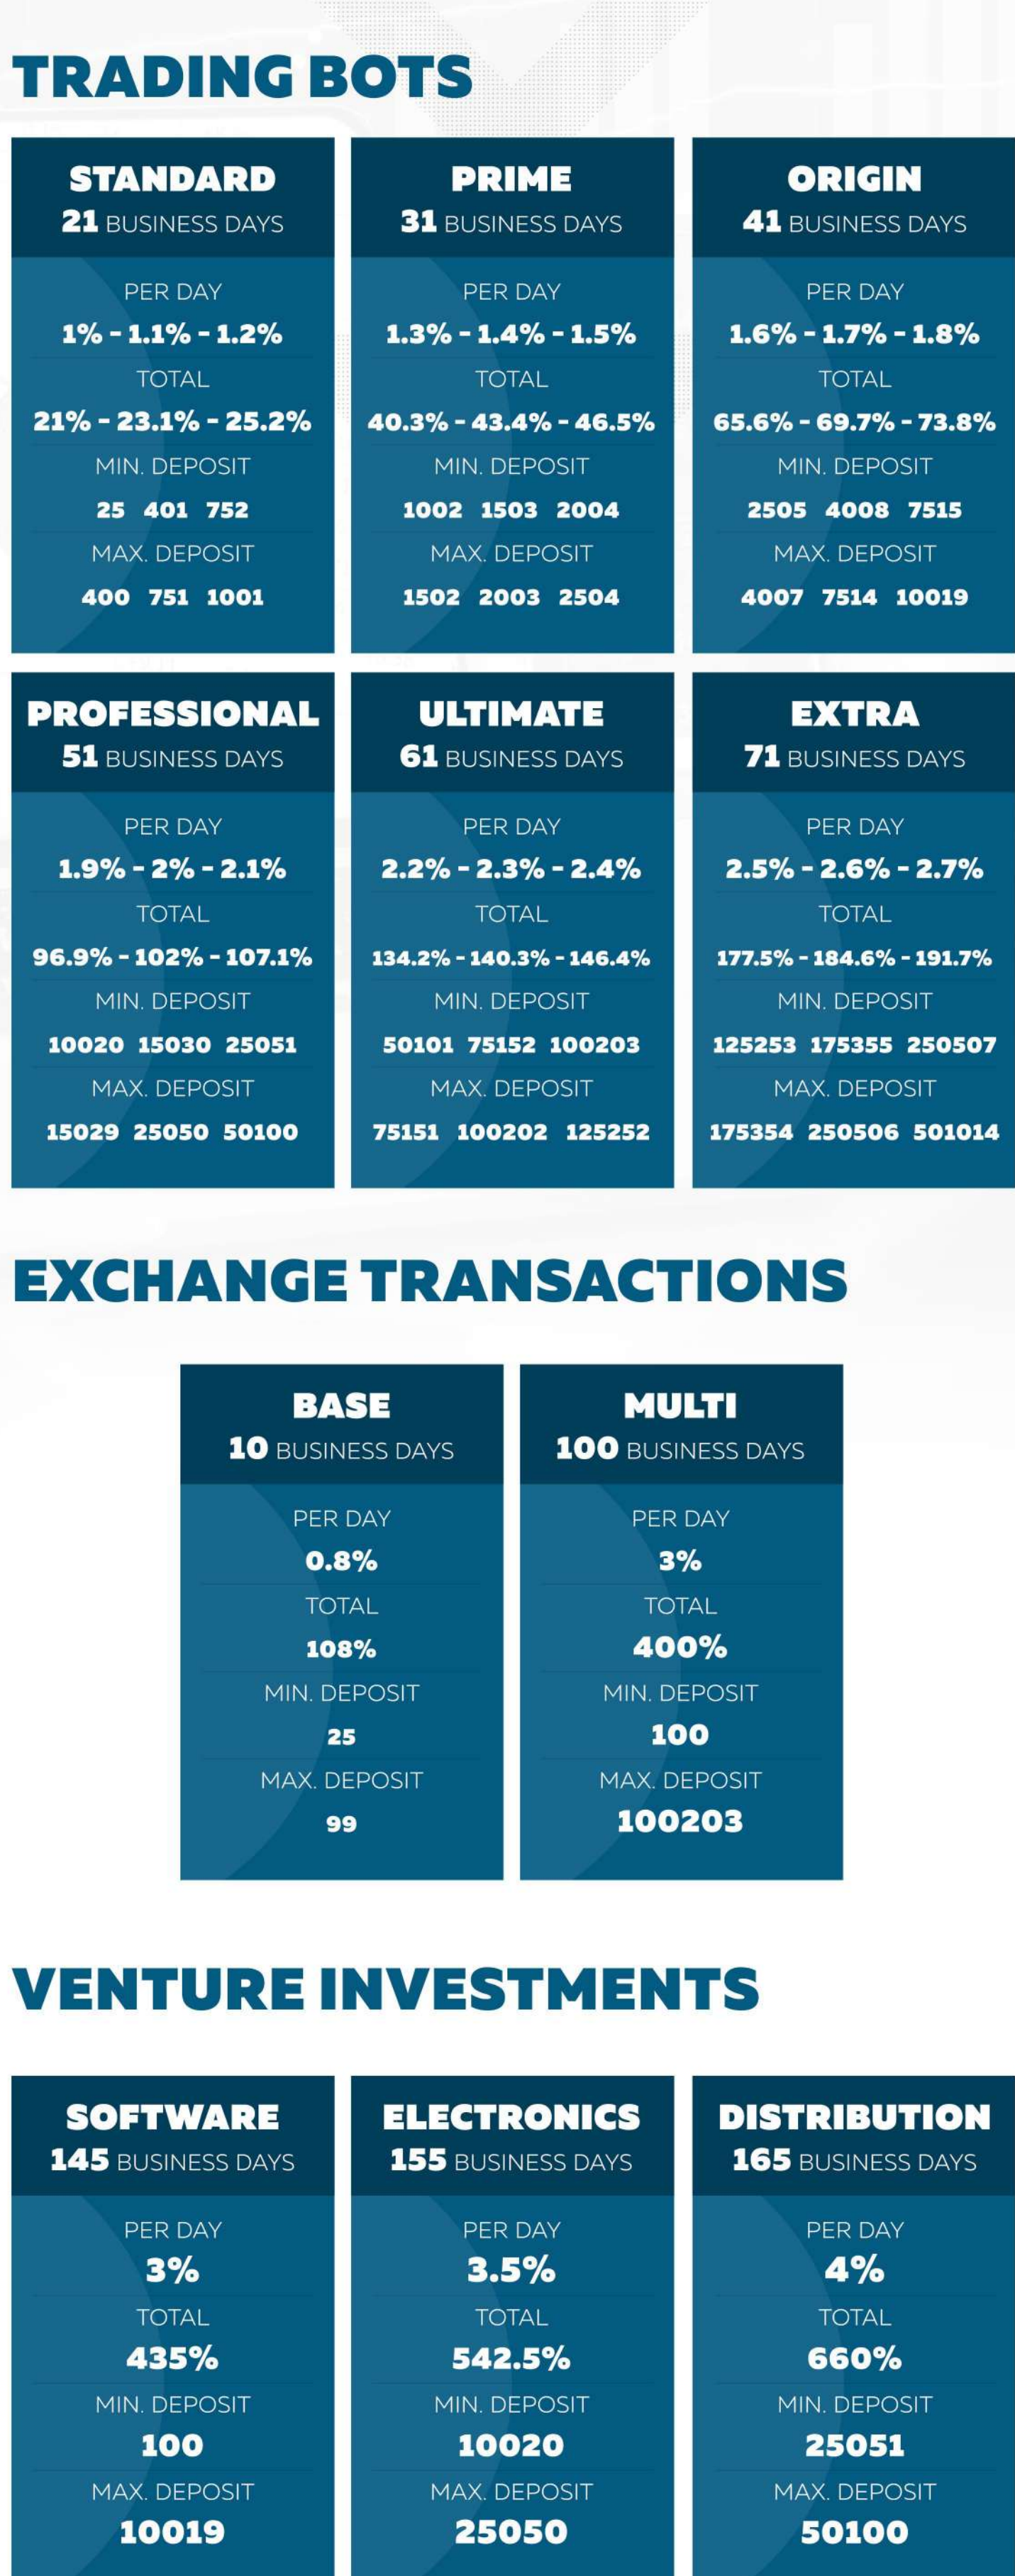

## HOW DO WE TRADE

The majority of our trading activities are automated, thanks to algorithmic trading software (Bruxis Trade robots) developed by our employees.

Since the launch of the first trading robot, many changes have been made to the program code, dictated by the realities of the financial market and the world economy.

At this stage of development, for a stable income from trading on forex and cryptocurrency exchanges, our specialists only need to periodically change the hot settings of trading robots, occasionally releasing new versions with a modified program code.

Professional traders monitor the trading process, the response of robots to macroeconomic changes in the world and advise the technical department on changes to the program code of the robots themselves.

## FOR INVESTORS

### WE HAVE THREE AREAS OF INVESTMENT:

- TRADING BOTS
- EXCHANGE TRANSACTIONS
- VENTURE INVESTMENTS

All of them differ in the level of income, limits on the deposit amount, and the term of operation.

Each investor has the right to choose the direction and amount of the deposit himself. We offer a flat rate so that everyone knows how much income they will receive from the company.
